## ■ Methodology

Comparable organizations were drawn from electronically filed IRS Form 990 returns and matched on sector (NTEE code), budget (a size-adaptive revenue band that tightens as the organization grows), and geography (same-state first, broadening only when too few peers qualify); every organization within the band forms the peer set. To compare fairly across regions and years, peer compensation is normalized to MO cost of living (BEA Regional Price Parities, 2023) and to the subject's filing year (CPI-U). The figure benchmarked is Form 990 Part VII, Section A, columns D + F — reportable pay plus other compensation, benefits, and deferred amounts (column F may include amounts from related organizations) — with the chief executive matched by role. Related-organization amounts (column E) and institutional trustees are excluded. Full methodology: [peerbasis.org/methodology](https://peerbasis.org/methodology).

## ■ Sample, role match & sensitivity

PEER COUNT	6 organizations — <b>below 15; treat the percentiles as indicative, not precise.</b> Compensation range \$6,091–\$286,375; filing years 2023–2024.
SIZE BASIS	Matched on total revenue (\$250); for reference, expenses \$86,970 and assets \$307,128. <b>Revenue and expenses diverge this year — revenue may misrepresent operating size; weigh the expense-based view.</b>
ROLE MATCH	Meagen Weber, reported title “CEO”, benchmarked as Executive Director / CEO. The title maps directly to this role.
RELATED-ORG PAY	6 peers report related-organization compensation (column E), which the D + F benchmark does not fully capture; review where material.

Sensitivity — the subject's percentile under alternative compensation definitions:

BASIS	SUBJECT PERCENTILE
Total compensation (D + F), cost-of-living + inflation adjusted — the PeerBasis default	17 <sup>th</sup>
Total compensation (D + F), as reported (no adjustments)	17 <sup>th</sup>
Reportable pay only (column D), adjusted	0 <sup>th</sup>
All sources (D + E + F), adjusted	17 <sup>th</sup>

If the percentile moves materially across these definitions, the result is sensitive to methodology choices, and the board should weigh which basis best fits its facts.
